ZMAN Refrigeration Smart Switch

Dear Mr. Thea

We have evaluated the ZMAN Refrigerator Smart Control and have determined that this switch can be used on all GE Appliance branded Top Freezer units.

The evaluation has been done to take into account customer usage patterns as it relates to the ZMAN Refrigeration Smart Switch. Setting the ZMAN Refrigeration Smart Switch in Preset position #2 (10 minutes off, 20 minutes on) fits our profile for operation long term.

Further evaluation is ongoing for additional refrigeration models. Once test results and performance evaluation is complete, GE Appliances will update the approved models.

Kind regards,
