

Refrigerator SHABBOS KEEPER

100% Shabbos Certified Through 2050

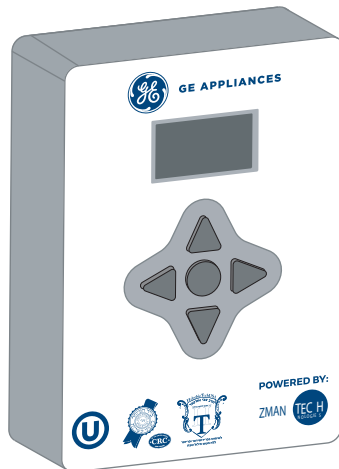

GE APPLIANCES

Certified Product

Powered by ZMAN Technologies to comply with the highest Shabbos standards, the Shabbos Keeper controls numerous refrigerator functions to ensure a smooth transition into and out of the Sabbath. The Shabbos Keeper automatically activates Shabbos Mode before Shabbos and Yom Tov, then reverts to weekday mode after.

The Shabbos Keeper conveniently plugs into the communication port on your GE Appliances refrigerator to control the cooling system, interior lights, door switches, water and ice dispenser, and your ice maker to ensure the highest standards of compliance during the Sabbath. The magnetic case on the Shabbos Keeper securely attaches to your refrigerator for hands-free, automatic operation year-round.
